

SECRET

OIA-54/84
14 March 1984

MEMORANDUM FOR: R. M. Huffstutler
Director, National Photographic Interpretation Center

ATTENTION: [] Associate Director, NPIC

25X1

FROM: Director, Imagery Analysis

SUBJECT: National Data Base Support to OIA []

25X1

1. A meeting was held on 8 March with your coordinator of tenant affairs, [] and my planning officer, [] to initiate discussion of Improved NPIC System (INS) support to OIA. The purpose of this memorandum is to formally request support in serving our National Data Base needs upon the relocation of OIA to Headquarters in 1987-88. []

25X1

2. It has become clear that in preparation of the OIA move [] and in the interest of a smooth transition, arrangements are necessary to guarantee continuing services of common concern which we depend upon today. I envision expanding data base access from the 40 Analyst Integrated Display Stations to be available in FY 86 to some 75 stations in FY 89. In addition, OIA will require data links in support of our mensuration equipment, printers, plotters and host data base support to our soft copy image exploitation devices. []
